Internet Search Tips

Basic searching:
1. Be specific with keywords  
   E.g.: Military Aircraft instead of Planes
2. Include region specific keywords  
   E.g.: Poverty Australia

Advanced searching:
1. Use “quotation marks” to find an exact match
2. For reliable sites look for the following in their web addresses:  
   .edu Educational information  
   .gov Government information  
   .org Community organisations
3. Use Command F to find words or phrases in a document or web page
4. Check out Google inside search for lots of tips and tricks
